

**Barrow Borough Council Response to the Inspector's query relating to REC54,  
Proposed Housing Sites Assessments 2017 (EL4 002): Matter 5, Question 2**

The highways authority comments on page 23 of the Proposed Site Assessments 2017 (EL4 002) state that a Transport Statement would be required for site REC54. For other sites, the highways authority comments state that a Transport Assessment is required.

Cumbria County Council's Development Design Guide, Appendix 3 (EL5 006) sets out guidance that developments of between 50 and 80 units would require a Transport Statement, whilst developments of over 80 units would require a Transport Assessment and Travel Plan. It is therefore considered that the highways comments for site REC54 in relation to the requirement of a Transport Statement are correct.
