Query from the Inspector

The Inspector requested comments from the Council on the following by no later than 26 November 2018:

- The latest (2016-based) household projections were published by ONS on 20 September 2018. The objectively assessed need (OAN) figure was re-based in 2017 (Updating the demographic evidence) using the 2016 mid-year population estimates. Having regard to the latest household projections does the Council consider that there would be any meaningful change in the OAN figure promoted in the submitted Local Plan?

This query and the Council's response to it should be published on the front page of the examination website.

Karen L Ridge

INSPECTOR
